

## Aviat Networks Introduces Aviat Store Europe

March 13, 2019

### Simplifies Purchasing, Enables Faster Deliveries for End Customers and Channel Partners

MILPITAS, Calif., March 13, 2019 /PRNewswire/ -- Aviat Networks, Inc. (NASDAQ: AVNW), the leading expert in wireless transport solutions, today announced the launch of the Aviat Store in Europe, a self-service online marketplace for the Company's newly introduced WTM 4000 all-outdoor product family along with associated antennas, accessories, and software. The Aviat Store was launched in late 2018 in the United States and has contributed to the Company's growth. Based on the initial success of the Aviat Store and upcoming expansion opportunities on a global basis, Aviat has extended coverage to include the European market.

With Aviat Store, customers can simplify quoting, purchasing, and delivery of Aviat products. The Integrated quote tool allows customers to create quotes and place orders in minutes and the "next day shipping" option will enable customers and channel partners to see current stock availability and enable fast deliveries ensuring project timelines can be met.

Aviat Store Europe is live and is accessible from Aviat Cloud ([www.aviatcloud.com](http://www.aviatcloud.com)) where customers also have access to Aviat Design, our cloud-based path planning tool, so that customers can design and now purchase microwave links through one easy intuitive interface thus automating the entire process. Aviat Store is designed to capture new share in the all-outdoor radio segment, which represents as much as 20% of the current global microwave radio market, and which is virtually all incremental business for Aviat.

"While Aviat Store USA is built to service the end customer directly, Aviat Store Europe will initially service Aviat's channel partners allowing us to expand our European channel business," states Michael Pangia, president and CEO, Aviat Networks. "Aviat Store Europe, combined with our WTM 4000 product portfolio and our exceptional customer service and support, gives Aviat a great opportunity for new growth in the European all-outdoor radio segment."
