

Butler Technologies—Leading Test, Measurement and Engineering Services Supplier in Ireland—Names Harris Stratex Networks Supplier of the Year for 2007

Harris Stratex provides Eclipse, Truepoint radios to Ireland's only accredited RF calibration services organization

Research Triangle Park, NC, Jan. 15, 2008 - Butler Technologies, Ireland's leading test and measurement equipment provider and the nation's only accredited RF calibration and engineering service, has named Harris Stratex Networks (NASDAQ:HSTX) its supplier of the year for 2007.

The annual award is presented to the one supplier identified by both the management and staff of the Butler Group as an organization that served Butler "beyond the call-of-duty" during 2007. The award is based upon product/service quality, support, responsiveness, customer experience and feedback.

Harris Stratex Networks, the leading independent supplier of turnkey wireless network solutions, has been working with Butler Technologies since February of 2007, supplying its Eclipse™ and TRuepoint® radios to the organization and its customers.

"During 2007, Harris Stratex Networks products and services have shown themselves to be high-quality, competitive solutions for communications network providers and users throughout Ireland," said Aaron Joyce, Butler Technologies director of Business Development. "Butler Technologies' relationship with Harris Stratex Networks has grown as we have received several key contracts for product and expertise. The company's products and services complement our in-house RF expertise and technical capacity."

"The Supplier of the Year award from Butler Technologies reflects our companywide effort to deliver the industry's best products and services," said Guy Campbell, Harris Stratex Networks' chief executive officer. "It also reflects our emphasis on customer service and relationships—and our commitment to extend our efforts as far as possible to ensure the success of our customers."

About The Butler Group

Butler Technologies, a leading provider of test and measurement solutions and systems to Ireland, Scotland and Northern England, was founded in 1997 to provide Test and Measurement Solutions and Components to the Telecomm, Data Comms and Electronics manufacturing sectors. Since then Butler Technologies has grown considerably and has expanded its products and Services into the Pharma, Medical and Healthcare Industries. Butler Agencies Ltd is a Specialist provider of TRACK and TRACE Systems, Passive and Electromechanical Components for the Automotive, Medical, PC Peripheral and Consumer markets.
