Why Aviat Wins

	Aviat's Competitive Advantage	vs. Microwave Specialists	vs. Wireless Generalists
Products	 ✓ Modular radio platform ✓ End-to-end offering of radios, multiband, routers, access ✓ Better RF performance 	 Highly leveraged in chipsets Difficult to create new product variants quickly Unable to invest in routing and other products 	 Microwave not focus Less responsive and agile to bringing radio solutions to market
Software & Services	 ✓ Turnkey services portfolio (design, planning, install) ✓ Software innovations to ease network operations and total cost of ownership (AviatCloud, Assurance software) 	 Product focus and lack of software investment Lack of experience and services make competing in private networks difficult 	Lack focus on dedicated software solutions for transport networks
Supply Chain	 ✓ Core competence – fast deliveries and disruptive go-to-market like the Aviat Store 	 Lack modularity limits supply chain flexibility Unable to create new business models or react to Aviat innovations 	 Microwave supply chain not a priority vs. RAN Cannot react to Aviat innovations
