

**AVIAT NETWORKS, INC.**

**Quarter Ended September 26, 2014 Summaries**

**RECONCILIATION OF NON-GAAP FINANCIAL MEASURES AND REGULATION G DISCLOSURE**

To supplement the consolidated financial statements presented in accordance with accounting principles generally accepted in the United States ("GAAP"), we provide additional measures of gross margin, research and development expenses, selling and administrative expenses, operating income or loss, income tax provision or benefit, income or loss from continuing operations, basic and diluted income or loss per share from continuing operations, and adjusted earnings before interest, tax, depreciation and amortization ("Adjusted EBITDA"), adjusted to exclude certain costs, charges, gains and losses, as set forth below. We believe that these non-GAAP financial measures, when considered together with the GAAP financial measures provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionate positive or negative impact on results in any particular period. We also believe these non-GAAP measures enhance the ability of investors to analyze trends in our business and to understand our performance. In addition, we may utilize non-GAAP financial measures as a guide in our forecasting, budgeting and long-term planning process and to measure operating performance for some management compensation purposes. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP. Reconciliations of these non-GAAP financial measures with the most directly comparable financial measures calculated in accordance with GAAP follow.

			(6.1)%

- (1) The adjustments above reconcile our GAAP financial results to the non-GAAP financial measures used by us. Our non-GAAP income or loss from continuing operations excluded share-based compensation, warehouse consolidation costs, amortization of intangible assets, restructuring charges and adjustment to reflect pro forma tax rate. Adjusted EBITDA was determined by excluding depreciation and amortization on property, plant and equipment, interest expense, provision for income taxes, and non-GAAP pre-tax adjustments, as set forth above, from the GAAP income from continuing operations. We believe that the presentation of these non-GAAP items provides meaningful supplemental information to investors, when viewed in conjunction with, and not in lieu of, our GAAP results. However, the non-GAAP financial measures have not been prepared under a comprehensive set of accounting rules or principles. Non-GAAP information should not be considered in isolation from, or as a substitute for, information prepared in accordance with GAAP. Moreover, there are material limitations associated with the use of non-GAAP financial measures.
