Competitive Positioning: Why We Will Win Versus...

Specialists »

Aviat Advantage

Competitor Implication

Products	Modular radio platform. Full portfolio of radios and routers. Better RF performance, Multi-Band	Highly leveraged in chipsets, products designed for cost – difficult to create new product variants quickly, and unable to invest in routing and other products. Higher TCO
Software and services	Turnkey services portfolio. Software innovations targeted at lowering microwave TCO like AviatCloud, FAS, MPLS	Product only. Makes it difficult to compete in private networks. Lack of investment in software
Supply chain	Aviat has core competence vs specialists. Fast deliveries, disruptive models like Aviat Store	Lack of modularity limits supply chain flexibility. Unable to create new business models or react to Aviat innovations. Longer lead times

Generalists »

Aviat Advantage

Competitor Implication

Products	Differentiated radio products. Better RF performance, Multi-Band	Microwave not a core competence / focus. Less responsive and agile in bringing radio solutions to market
Software and services	Software innovations targeted at lowering microwave TCO like AviatCloud, FAS	Lack a focus on dedicated software solutions for transport networks
Supply chain	Aviat has core competence vs generalists. Fast deliveries, disruptive models like Aviat Store	Microwave supply chain not a priority vs RAN. Cannot react to Aviat innovations. Longer lead times

Bottom line: Aviat Provides More Innovation, Lower TCO, Better Value Than our Competitors
