Forward-looking statements are neither historical facts nor assurances of future performance. Instead, forward-looking statements are based on estimates reflecting the current beliefs, expectations and assumptions of the senior management of Aviat regarding the future of its business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Such forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. Forward-looking statements should therefore be considered in light of various important factors, including those set forth in this document. Therefore, you should not rely on any of these forward-looking statements.

Important factors that could cause actual results to differ materially from estimates or projections contained in the forward-looking statements include the following: the impact of COVID-19; disruptions relating to the ongoing conflict between Russia and Ukraine; continued price and margin erosion in the microwave transmission industry; the impact of the volume, timing, and customer, product, and geographic mix of our product orders; our ability to meet financial covenant requirements; the timing of our receipt of payment; our ability to meet product development dates or anticipated cost reductions of products; our suppliers' inability to perform and deliver on time, component shortages, or other supply chain constraints; the effects of inflation; customer acceptance of new products; the ability of our subcontractors to timely perform; weakness in the global economy affecting customer spending; retention of our key personnel; our ability to manage and maintain key customer relationship; uncertain economic conditions in the telecommunications sector combined with operator and supplier consolidation; our failure to protect our intellectual property rights or defend against

intellectual property infringement claims; the results of our restructuring efforts; the ability to preserve and use our net operating loss carryforwards; the effects of currency and interest rate risks; the effects of current and future government regulations; general economic conditions, including uncertainty regarding the timing, pace and extent of an economic recovery in the United States and other countries where we conduct business; the conduct of unethical business practices in developing countries; the impact of political turmoil in countries where we have significant business; our ability to realize the anticipated benefits of any proposed or recent acquisitions; the impact of tariffs, the adoption of trade restrictions affecting our products or suppliers, a United States withdrawal from or significant renegotiation of trade agreements, the occurrence of trade wars, the closing of border crossings, and other changes in trade regulations or relationships; our ability to implement our stock repurchase program or that it will enhance long-term stockholder value; the impact of adverse developments affecting the financial services industry, including events or concerns involving liquidity, defaults or non-performance by financial institutions.

For more information regarding the risks and uncertainties for Aviat's business, see "Risk Factors" in Aviat's Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") on September 14, 2022, as well as other reports filed by Aviat with the SEC from time to time. Aviat undertakes no obligation to update publicly any forward-looking statement, whether written or oral, for any reason, except as required by law, even as new information becomes available or other events occur in the future.

- ¹ We have not reconciled Adjusted EBITDA guidance to its corresponding GAAP measure due to the high variability and difficulty in making accurate forecasts and projections, particularly with respect to merger and acquisition costs and share-based compensation. In particular, share-based compensation expense is affected by future hiring, turnover, and retention needs, as well as the future fair market value of our common stock, all of which are difficult to predict and subject to change. Accordingly, reconciliations of forward-looking Adjusted EBITDA are not available without unreasonable effort.

AVIAT NETWORKS, INC.

Fiscal Year 2023 Third Quarter Summary

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES AND REGULATION G DISCLOSURE

To supplement the consolidated financial statements presented in accordance with accounting principles generally accepted in the United States (GAAP), we provide additional measures of gross margin, research and development expenses, selling and administrative expenses, operating income, provision for or benefit from income taxes, net income, net income per share, and adjusted income before interest, tax, depreciation and amortization (Adjusted EBITDA), in each case, adjusted to exclude certain costs, charges, gains and losses, as set forth below. We believe that these non-GAAP financial measures, when considered together with the GAAP financial measures provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionate positive or negative impact on results in any particular period. We also believe these non-GAAP measures enhance the ability of investors to analyze trends in our business and to understand our performance. In addition, we may utilize non-GAAP financial measures as a guide in our forecasting, budgeting and long-term planning process and to measure operating performance for some management compensation purposes. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP. Reconciliations of these non-GAAP financial measures with the most directly comparable financial measures calculated in accordance with GAAP follow.

- (1) The adjustments above reconcile our GAAP financial results to the non-GAAP financial measures used by us. Our non-GAAP net income excluded share-based compensation, and other non-recurring charges (recovery). Adjusted EBITDA was determined by excluding depreciation and amortization on property, plant and equipment, interest, provision for or benefit from income taxes, and non-GAAP pre-tax adjustments, as set forth above, from GAAP net income. We believe that the presentation of these non-GAAP items provides meaningful supplemental information to investors, when viewed in conjunction with, and not in lieu of, our GAAP results. However, the non-GAAP financial measures have not been prepared under a comprehensive set of accounting rules or principles. Non-GAAP information should not be considered in isolation from, or as a substitute for, information prepared in accordance with GAAP. Moreover, there are material limitations associated with the use of non-GAAP financial measures.
