Aviat Networks to Present Low Latency Microwave Communications Solutions at Trading Architecture Singapore

Leader in Low Latency Microwave Networking to Show Range of Options for Financial Services Firms in Singapore November 7-8

SANTA CLARA, Calif., Oct. 30, 2012 /PRNewswire/ -- Aviat Networks, Inc. (NASDAQ: AVNW), a leading expert in microwave networking solutions, today announced that it will participate at the Trading Architecture Singapore 2012 conference November 7-8, 2012, in Singapore, which is one of the leading trading technology conferences in the world. Aviat Networks will showcase its complete low-latency solution portfolio, with support from 6GHz to 80GHz, which is available in the Asia-Pacific market for commercial application.

Aviat Networks will be displaying its Eclipse Packet Node microwave platform configured with the company's low latency innovations including Aviat's unique regenerative repeater technology. For the Asia-Pacific financial services market this solution will enable the lowest possible end-to-end latency. Aviat Networks will be in booth 25.

About Aviat Networks

Aviat Networks, Inc. (NASDAQ: AVNW) is a leading global provider of microwave networking solutions transforming communications networks to handle the exploding growth of IP-centric, multi-Gigabit data services. With more than 750,000 systems installed around the world, Aviat Networks provides LTE-proven microwave networking solutions to mobile operators, including some of the largest and most advanced 4G/LTE networks in the world. Public safety, utility, government and defense organizations also trust Aviat Networks' solutions for their mission-critical applications where reliability is paramount. In conjunction with its networking solutions, Aviat Networks provides a comprehensive suite of localized professional and support services enabling customers to effectively and seamlessly migrate to next generation Carrier Ethernet/IP networks. For more than 50 years, customers have relied on Aviat Networks' high performance and scalable solutions to help them maximize their investments and solve their most challenging network problems. Headquartered in Santa Clara, California, Aviat Networks operates in 46 countries around the world.
