Aviat Wins New Tier 1 Carrier

\$9 Million in Orders Received from Signed Supply Contract

SANTA CLARA, Calif., Sept. 23, 2015 /PRNewswire/ -- Aviat Networks, Inc. (NASDAQ: AVNW), the leading expert in microwave networking solutions, today announced that it has entered an agreement to provide microwave solutions to a Tier 1 mobile operator in the United States. A new Aviat customer, the operator will deploy CTR 8540 and CTR 8312 microwave solutions in support of its nationwide LTE rural rollout.

Aviat's high-quality products, strong technology roadmap, extensive local support and ability to deliver on time all contribute to the lowest overall total cost of ownership (TCO) and the customer's decision to select Aviat. Additional equipment approved includes ODU 600 split-mount radios and Aviat's ProVision network management system.

"As a brand-new Tier 1 operator to our company, nothing could make us prouder than to support the backhaul needs of this operator's LTE expansion," says Michael Pangia, president and CEO, Aviat Networks. "Overall, this represents a validation of our vision of combining microwave and IP technologies in the CTR platform."

About Aviat Networks

Aviat Networks, Inc. (NASDAQ: AVNW) is a leading global provider of microwave networking solutions transforming communications networks to handle the exploding growth of IP-centric, multi-Gigabit data services. With more than one million systems sold in over 140 countries, Aviat Networks provides LTE-proven microwave networking solutions to mobile operators, including some of the largest and most advanced 4G/LTE networks in the world. Public safety, utility, government and defense organizations trust Aviat Networks' solutions for their mission-critical applications where reliability is paramount. In conjunction with its networking solutions, Aviat Networks provides a comprehensive suite of localized professional and support services enabling customers to effectively and seamlessly migrate to next-generation Carrier Ethernet/IP networks. For more than 50 years, customers have relied on Aviat Networks' high performance and scalable solutions to help them maximize their investments and solve their most challenging network problems. Headquartered in Santa Clara, California, Aviat Networks operates in more than 100 countries around the world.
