## **Aviat Wins IP/MPLS Router Business with East Coast Utility**

### **Northeast Gas & Electric Company Takes Delivery of CTR 8611 Microwave Routers**

SANTA CLARA, Calif., Nov. 24, 2015 /PRNewswire/ -- Aviat Networks, Inc. (NASDAQ: AVNW), the leading expert in microwave networking solutions, today announced that it has reached an agreement to supply CTR 8611 microwave routers to a leading utility in the Northeast United States. The gas and electric company will take delivery of all CTR 8611 microwave routers before the end of calendar year 2015.

Aviat will supply the end-to-end IP/MPLS transport solution for this mission-critical network including IP/MPLS routers, microwave radios and ProVision INM network management system.

"We are excited about the IP/MPLS router opportunity in our public safety and utility customer base in North America," says Michael Pangia, president and CEO, Aviat Networks. "This win further validates the growing market for integrated transport solutions including routers, microwave and intelligent management systems."

#### **About Aviat Networks**

Aviat Networks, Inc. (NASDAQ: AVNW) is a leading global provider of microwave networking solutions transforming communications networks to handle the exploding growth of IP-centric, multi-Gigabit data services. With more than one million systems sold in over 140 countries, Aviat Networks provides LTE-proven microwave networking solutions to mobile operators, including some of the largest and most advanced 4G/LTE networks in the world. Public safety, utility, government and defense organizations trust Aviat Networks' solutions for their mission-critical applications where reliability is paramount. In conjunction with its networking solutions, Aviat Networks provides a comprehensive suite of localized professional and support services enabling customers to effectively and seamlessly migrate to next-generation Carrier Ethernet/IP networks. For more than 50 years, customers have relied on Aviat Networks' high performance and scalable solutions to help them maximize their investments and solve their most challenging network problems. Headquartered in Santa Clara, California, Aviat Networks operates in more than 100 countries around the world.
