

Harris Stratex Networks to Join WCA 2008 Panels on Cost-Effective Wireless Backhaul and Broadband Public Safety Networks

Research Triangle Park, NC – April 22, 2008 – Harris Stratex Networks, Inc. (NASDAQ: HSTX), the leading independent supplier of turnkey wireless transmission solutions, will exhibit its Eclipse® Carrier Ethernet over Wireless™ solution and participate in panel sessions during the WCA 2008 conference, sponsored by the Wireless Communications Association International and held at the Grand Hyatt in Washington, D.C., April 21-23. The company will also join panel sessions at the GovSec Conference, associated with WCA 2008 held on April 23-24 at the Washington Convention Center.

Randy Jenkins, director, North America Marketing at Harris Stratex Networks, will represent the company on two panels. On April 22 at 5 p.m., “Cost-Effective Backhaul as a Key to Profitability” will review advances in wireless transmission technology as an alternative to leased-line connections, including benefits, cost savings and deployment advantages. On April 24 at 3:15 p.m., as part of the “WCA@GovSec” sessions following the WCA conference, “Preparing for America’s New Broadband Public Safety Network”, he will discuss the evolution to the next-generation public safety network.

Founded in 1988, the WCA is the non-profit trade and professional association for the wireless broadband industry. Member companies on six continents represent the bulk of this sector’s leading carriers, vendors and consultants.

Harris Stratex Networks will be showcasing its Eclipse® Carrier Ethernet over Wireless™ solution in booth #10. Eclipse supports side-by-side native transport of both TDM and Carrier Ethernet over the same link, an essential capability for operators seeking a smooth, cost-effective migration path to next-generation packet-based networking with broadband service offerings. The Eclipse platform’s Liquid Bandwidth capability allows available capacity to be allocated to either voice or data traffic through software control.
